

CHICAGO HOUSING AUTHORITY HOUSING CHOICE VOUCHER PROGRAM

**Allowances for Tenant Furnished Utilities and Other Services
Effective: November 1, 2017**

Participants in the Housing Choice Voucher Program (HCV) pay approximately 30% of their income for rent and utilities. The Department of Housing and Urban Development (HUD) has defined Total Tenant Payment (TTP) for “rent” to include both shelter and the costs for reasonable amounts of utilities. The amount determined necessary to cover the resident’s reasonable utility costs is the utility allowance. The Chicago Housing Authority calculates this by structure type and bedroom size of the unit. The numbers below represent the average amount spent on utilities in the region and are used to calculate each household’s utility allowance. These numbers are updated annually to reflect changes in the local market.
